

Bachelor of Science International Management

The dual study programme International Management combines a practice-oriented business management course with simultaneous systematic in-company training. The teaching covers relevant specialist knowledge from the individual areas of business administration, which is then applied during the practical phases in the various departments of the company. By choosing an appropriate area of focus in the third year, students are optimally prepared for the requirements of companies in the respective industries and functions.

Highlights of the course

- Dual Bachelor's programme in business administration with alternating theoretical and practical phases
- Financial independence due to training salary
- Attractive career prospects
- Stays abroad possible
- Wide range of options with offers from the Digital Toolbox
- Teachers with extensive practical experience
- Study in the heart of Hamburg

		Project Management		Study Trip	
General Electives					
	Digital Toolbox				
				Bachelor's Thesis	

Course structure → In the first two years, basic business knowledge is taught and supplemented by modules on specific methods, Business English and Law. In the second and third years, selected core subjects are covered in depth. The third year is characterised by the focus areas and the Bachelor's thesis.

Elective areas → In the elective subjects, knowledge and methods are deepened and expanded. The programme offers a variety of options: Digital Toolbox, Compulsory Elective, Comprehensive Compulsory Elective and Study Excursion

Specialisation → In the focus area, students have the opportunity to specialise in International Management topics.

Admission requirements

Good grades in mathematics and English (10 points on average for two certificates from the upper level or 9 points for courses with a higher requirement level). If the corresponding grades have not been obtained, an entrance examination must be taken.

Application process

Applications are submitted directly to the company. This is where the selection process takes place. Once the contract has been concluded with the company, the HSBA checks the grades in mathematics and English. If the admission requirements are met, enrolment takes place.
